EDUCATION

British Columbia Institute of Technology

May 2025

- Diploma in Computer Systems Technology
- Coursework: *Systems and Object-Oriented Programming, Software Design and Patterns, Web Development, Algorithms and Data Structures, Design History, Theory and Tools, Information Systems.*

EXPERIENCE

Café De A | *Software Developer / Server*

Winter 2025

- Utilized React and tailwind CSS to build a responsive website showcasing menu items
- Designed an in-house waitlist app with built-in AWS-based-messaging for employees to notify guests via SMS
- Supported front-of-house operations, including bartending, waitlist management, and food service

Coast Capital Savings | *Member Services Representative*

Summer 2022

- Demonstrated exceptional knowledge towards investment product and services, including term deposits, TFSAs, and RRSPs
- Established strong MSR to member connection in addition to generating referral opportunities

Starbucks Coffee | *Shift Supervisor*

Summer 2018

- Performed nightly closing tasks in cash handling and Sales Reporting
- Carried out weekly inventory stock count for coffee beans, milk, and merchandise

PROJECTS

Cafedea Restaurant Website

Winter 2025

cafedea.ca

- Designed and developed a responsive, mobile-friendly website for a local Hong Kong café, featuring dynamic menus for breakfast and lunch, and dinner.
- Built reusable components with React and TypeScript to ensure accessibility, performance, and seamless user experience across devices.

CityConnect

Fall 2023

comp1800-bby19.web.app

- Collaborated with a team of 3 to design and develop a user-friendly, real-time platform enabling citizens to efficiently report issues and communicate with their local city halls
